Student Delivery Model

(Academic Completion Plan)

Students currently registered in SAT programs that are now being offered in the Competency Based Education (CBE) model may now have the choice of transitioning to this new delivery and reporting system. This will depend on the number of courses still pending to complete and other external factors such as Financial Aid or sponsorship status.

Therefore, prior to making any changes students are required to declare the model that they wish to pursue. The SAT Student Records Office will then evaluate the student's status and determine when or if transitioning to CBE is appropriate. Please carefully read the choices below and choose one.

As a continuing student, I understand that I must declare one delivery method listed below for the remainder of my training at the School of Applied Technology. I also understand that any change I request will need prior approval from the Financial Aid Office or Sponsor, where appropriate.

- I would like to remain in my current training plan**, where I purchase one course at a time. By choosing this plan, I understand if at any time I exit my program of study, this option may no longer be available when I return and I will be placed in the CBE block model.

- I would like to be placed in the CBE block model.** By choosing this model, I understand that I will be expected to pay for a block of time and will be held to block deadlines. When the time for a block expires I will need to purchase additional blocks of time in order to continue my training.

I have read the above statement and agree to the terms as listed.
